

**Specification as Amended:**

On page 1, line 1, please delete the heading "Description".

On page 1, before the first paragraph, please insert the following heading:

A' **Background of the Invention**

On page 1, after line 8, please insert the following heading:

B' **Summary of the Invention**

On page 1, please replace the paragraph contained within lines 9-16 with the following:

That problem is solved according to the invention. The angle fixing according to the invention has two limbs, the relative angular position of which one to another can be adjusted by pivoting the limbs. The limbs of the angle fixing according to the invention can be set at angles departing from the customary  $90^\circ$ . The limbs of the angle fixing can be locked in position on one another in order that an angle that has been set can be maintained unchanged. The angle fixing according to the invention has the advantage that it enables two components to be fixed to one another at an adjustable and therefore selectable angle.

On page 2, before line 1, please insert the following heading:

C' **Brief Description of the Drawings**
